# Sulaymonov Diyorbek

**Frontend Developer (React / Next.js)**

+998 93 622 19 07 • diyorbeksulaymonov70@gmail.com • Tashkent, Uzbekistan • LinkedIn • GitHub • Portfolio

## Summary

Frontend Developer with 2+ years of experience building production web applications with React.js, Next.js and TypeScript. Currently at O'zagrosug'urta JSC, developing customer-facing online insurance sales platforms, a corporate learning platform and internal business applications. Experienced in building fast, reliable and user-friendly interfaces, REST API integrations, online payment systems and Node.js backend services.

## Experience

**Frontend Engineer,** *(O'zagrosug'urta JSC)* **Tashkent, Uzbekistan** *2024 – present*

- Developed customer-facing insurance sales platforms (agros.uz, mypolis.agros.uz, agros-hayot.uz) and the edu.agros.uz learning platform using React.js, Next.js and TypeScript.
- Built multi-step forms, validation, premium calculation, policy issuance and document generation features for the insurance purchase flow.
- Integrated Payme and Click payment systems and launched end-to-end online payment flows.
- Created reusable UI components; implemented REST API integration, authentication and server-state management (TanStack Query).
- Independently developed backend services and business logic with Node.js, Express.js and MongoDB.
- Deployed and configured production applications using Docker, Nginx and PM2.

## Key Projects

**agros.uz** – O'zagrosug'urta JSC official website and insurance sales agros.uz

- Developed the frontend of the company's official website for selling insurance products online.
- Built product pages, forms and responsive interfaces, and integrated them with backend services.

**mypolis.agros.uz** – Online insurance sales platform mypolis.agros.uz

- Built the entire frontend from scratch with Next.js, React.js and TypeScript.
- Implemented multi-step forms, validation, premium calculation, policy issuance and payments via Payme and Click.

**agros-hayot.uz** – Life insurance sales platform agros-hayot.uz

- Developed an online sales website for Agros Hayot JSC life insurance products.
- Built insurance product pages, application forms, API integrations and reusable UI components.

**edu.agros.uz** – Learning platform edu.agros.uz

- Built the frontend with Next.js and the REST API and backend services with Node.js, Express.js and MongoDB.
- Implemented course and lesson management, file uploads and authentication.

## Languages and Technologies

- **Languages:** JavaScript, TypeScript, HTML5, CSS3.
