SUMMARY

Frontend Engineer with 2+ years of experience building production web applications with React.js, Next.js, and TypeScript. Currently developing customer-facing insurance platforms and internal business applications at Uzagrosugurta JSC. Experienced in reusable UI components, REST API integration, backend services with Node.js and Express.js, MongoDB, authentication, and payment workflows.

EXPERIENCE

Frontend Engineer	Uzagrosugurta JSC	10/2024 – Present
- Develop and maintain customer-facing insurance platforms, including mypolis.agros.uz, using React.js, Next.js, and TypeScript. - Build insurance purchasing workflows including forms, validation, API integrations, payment processing, and document generation. - Develop reusable UI components and application features with a focus on maintainability, scalability, and performance. - Integrate REST APIs and backend services, handling authentication, data management, error states, and asynchronous workflows. - Independently develop backend services, business logic, and database integrations using Node.js, Express.js, and MongoDB. - Integrate Payme and Click payment systems and implement related payment workflows. - Deploy and maintain production applications using Docker, Nginx, and PM2.
